Mr. David E. Pope, President
Gulf Coast Section, S.E.P.M.
P. O. Box 273
Kenner, Louisiana

Dear Mr. Pope:

The objective of the Type Locality Project Committee for the fiscal year of 1959-60 was to secure papers from those authors who had previously volunteered to make a contribution. This was about 75% successful. Several unsolicited contributions were received.

The committee chairman plans to approach local societies, individuals and state surveys in the coming year and hopes to have at least fifty localities for the next unit.

Respectfully submitted,

Chas. H. Stuckey, Jr.
Chairman, Type Locality Project Committee
